

I want to thank Gavilan Hills Academy for the enjoyable teaching experience that I had during the 2007-2008 school year. I am happy to have had the opportunity to teach chess to students of different age groups all at the same time. The students were well-disciplined, motivated and eager to learn how to play chess. They all reflected the high standards of the school's chief administrator, Ms. Maggie Kennedy, and her entire staff. I especially want to thank the parents who supported our Academic Chess after-school program, particularly, Ms. Rochelle Beerli, who worked hard helping students with registration in the class, and participation in our weekend tournaments, in which they were very successful!

I look forward to continuing the chess program at Gavilan Hills Academy during the coming year.
